

OSMOPRO®

**Naturally occurring osmolyte.
Enhances plant cell osmoregulation
and crop performance under conditions of
environmental stress.**

GUARANTEED ANALYSIS

Soil Amending Ingredient
Active Ingredient: Glycine betaine 97%
Total Other Ingredient (Water) 3%
Information regarding the contents and levels of metals in this product is available on the internet at: www.aapfco.org/metals.htm

Improves water use efficiency and crop performance under conditions of environmental stress caused by heat, cold, salinity, and drought.

PRECAUTIONARY STATEMENTS

KEEP OUT OF REACH OF CHILDREN. Do not breathe dust.

APPLICATION RATE

1.8-3.6 lb/acre in 100-200 gallons of water. Use of adjuvant is recommended for optimal penetration of OSMOPRO® into the plant. Add the adjuvant to the spray solution according to the manufacturer's instructions.

APPLICATION TIMING

Timing varies by crop. For fruits and vegetables apply at the onset of flowering. Repeat every 3-4 weeks.

APPLICATION METHOD

Apply as a foliar spray using normal agricultural spray equipment.

STORAGE AND DISPOSAL

Store in a dry place. The shelf life of the product is 3 years from the production date when stored at room temperature protected from humidity. Dispose of all waste (contents and container) in accordance with local, state and federal regulations.

NET WEIGHT

4.4 LB
(2 kg)
